Spreader Monitoring System

– *Turning spreader data into actionable, impactful insights.*

- **Spreader health overview**
Single view for all spreaders in your fleet
- **Put first things first**
Laserlike focus on what needs to be done, and when
- **Predictable spreader operations**
Identify decelerating performance and focus preventive service on weak links in order to strengthen the chain
- **Maximize uptime**
Statistics on performance and issues to fine tune spreader fleet usage

AVOID THE SPREADER BUTTERFLY EFFECT

If your spreader fails, so will your crane. Then ships will be delayed in berth, and soon vessels will begin to queue up outside the terminal. In worst case, your customers' goods will be delayed to its destination.

This "butterfly effect" of unfortunate events can be avoided by investing in the Bromma Spreader Monitoring System.

EVERYTHING AT A GLANCE

Simple to use and accessible with any device.
